Dosch Organic Acres

PO Box 81
Willow Bunch, Saskatchewan S0H 4K0
www.doschorganic.ca

Dosch Organic Acres is family owned and farmed in Saskatchewan Canada since 1960.

Organic farming is a way of life that our family takes seriously. Not only is it about the food we grow, it's more about taking care of the planet. On our farm we make sure to preserve land to its natural state as much as possible with preserving the wetlands and trees so animals and birds have a home. Placing bee houses so help save the bees that protect our planet. Making sure that our water ways are seeded to grass so water doesn't erode the soil. Planting flowers in rock piles. Helping mother nature and doing our part for tomorrow's generations is part of what we feel we need to do today!

Products & Services Include:

- Organic Brown Milled Flaxseed
- Wheat Crunch Snack (variety of flavors)

Evova Foods Inc.

1-123 Pinehouse Drive
Saskatoon, Saskatchewan S7K 5W1
www.toddsbettersnacks.com

We love snacking but we were tired of having to choose between snacks that taste good and snacks that are actually good for you.

So we had a vision: a truly great-tasting and better-for-you snack, made with the natural goodness of egg white.

It took many iterations, but we perfected it! Egg-cellent Protein Puffs are packed full of protein and they taste great.

We make them in batches using a special baking process that allows egg white to expand into a crunchy yet light puff – something so challenging we were issued a patent.

These are award-winning snacks you won't find from anyone else.

Products & Services Include:

- Todd's Better Snacks, crunchy and delicious snacks, like chips, made from nourishing egg whites, nourishing foods, and high in protein.

InfraReady Products Ltd.

1438 Fletcher Road
Saskatoon, Saskatchewan S7M 5T2
www.infrareadyproducts.com

Since 1994 **InfraReady Products** has been manufacturing ingredients with a focus on convenience, functionality, and flavor. Through the application of infrared cooking and subsequent flaking, cracking, milling technologies and consolidating into multigrain blends, they produce ingredients that are ready to use in a variety of applications. Exposure to infrared energy and the alteration of the physical form (flaking/cracking/milling) reduces cooking times and processing requirements; all while retaining the nutritional properties of the raw product without the loss of nutrients. InfraReady's quest as an industrial food ingredient supplier is clear: they enable food manufacturers to profit from over 250 unique whole grain ingredients. As the name suggests, InfraReady uses "infra- red" cooking technology to make products "ready". Their success in domestic and export markets is measured by their client's ability to create and keep customers who desire and benefit from the consumption of whole grains. As a BRCGS accredited company, food safety programs are a prerequisite, however, creativity and innovation are how they achieve "The Good We Get from Grain™"

Products & Services include:

Organic, conventional, kosher and halal:

- Precooked Cereals
- Pulses
- Grains
- Oilseeds

Saskatoon Colostrum Company Ltd. (SCCL)

30 Molaro Place
Saskatoon, Saskatchewan S7K 6A2
www.sccl.com

SCCL is a privately held biosciences company that develops and produces innovative products from dairy cow colostrum. Scientists at SCCL have developed methods of accurately measuring key immunological, metabolic and nutritional components found in colostrum. Using these assays in combination with their proprietary processing method that preserves the levels of key components, they produce spray dried natural colostrum with specific levels of important ingredients designed to improve immunity against infectious diseases, and provide key growth and metabolic factors that support general health, well being and athletic performance. With their distribution partners throughout the Americas and Asia they provide innovative products for humans, companion animals, beef and dairy calves, lambs, goats and horses. These products include HEADSTART, Calf's Choice Total, Peterna, Lamb's Choice Total and others. The company is looking for new distributors and private label opportunities in all markets and species to meet the growing global demand for their products. Certifications include: GMP with Health Canada.

Products & Services Include:

- Spray-dried bovine colostrum

Smart Earth Camelina Corp

Unit 20, 2414 Schuyler Street
Saskatoon, Saskatchewan S7M 5V1
www.smartearthcamelina.ca

Smart Earth Camelina Corp. is the world's first and only fully integrated producer of Camelina. Smart Earth controls the entire production process from their proprietary Non-GMO seed variety to the grower's field and on to the processor. This ensures full traceability from farm to customer. The company is Saskatoon-based, operating in the heart of North America's oilseed production region. Smart Earth work with the world's leading experts in oilseed breeding, agronomics and processing to deliver high quality Camelina at scale. Camelina is a highly sustainable source of omega 3. It can be produced on marginal lands and uses less water, fertilizers and chemicals as compared to other commonly produced oilseed crops such as flax and canola.

Products & Services Include:

- Camelina meal and oil products for the companion animal (food grade) and feed market from tote to rail car quantities. Smart Earth Camelina Oil is a high omega 3 oil at 38%, that also offers the ideal balance of omega 3 to 6 (2:1). These two features found together in one oil is what makes camelina stand out among omega oils. Its naturally occurring vitamin E provides antioxidant protection while also stabilizing the oil. Camelina has a 2-3 year shelf life, with low risk of oxidation rancidity.
