54e Dev Studios Inc

106 Victoria Ave East - Suite 105
Regina, Saskatchewan S4N 0N4
www.54e.dev/

54e Dev Studios is an innovative company that has changed the world of mobile gaming by using its proprietary live video technology to bring Connected Reality gaming to life. Its first gaming title release OneShot Golf allows users to take control of real world golfing robots to play golf with a real golf ball on a real golf course. With cutting edge robotics, computer vision and industrial style automation 54e is delivering a unique and better experience to the world of mobile gaming.

Products & Services Include:

- A mobile app game, OneShot Golf, that uses Connected Reality to control a real world golfing robot and hit a real golf ball on a real mini golf course and play to win real prizes! With over 50,000,000 golf shots taken, and over 300 million views on the OneShot golf hashtag on TikTok, OneShot golf has been a great success!

Adaptive Agriculture Solutions

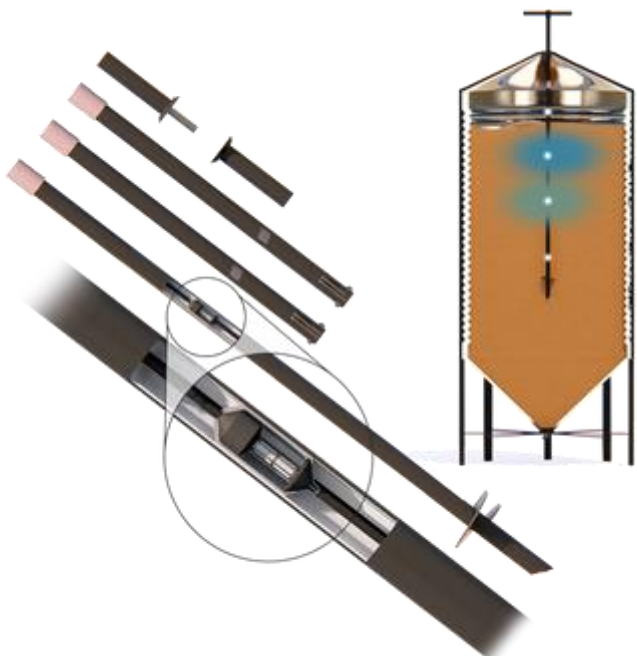

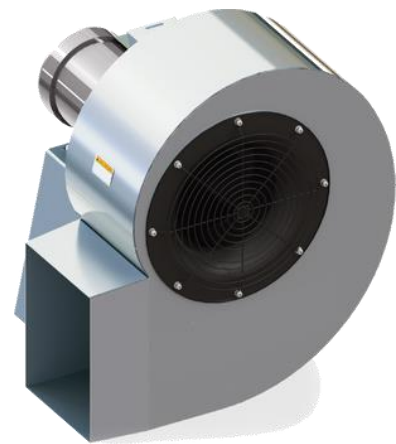

332 Packham Avenue
Saskatoon, Saskatchewan S7N 2T1
www.adaptiveagriculture.ca

Adaptive Agriculture Solutions is best known for its thermostatically controlled in-bin grain drying system that uses its patented adapter plate transitions to control the supply of supplemental heat to grain bins. The company's technology has progressed in producing a series of Internet of Things (IoT) sensors attached to a grain bin to improve grain drying efficiencies through computer automation that turns any grain bin into an efficient grain drying and conditioning system. Adaptive Agriculture is headquartered out of Saskatoon, Saskatchewan (Canada), and has clients across the western prairie provinces and into the northern USA.

Products & Services Include:

- Both cellular based and Wifi connected devices for grain bin monitoring and conditioning.
- Binstick
- Bindapt thermostats & devices
- Bindapt adapter plates
- Heating & Ducting
- Aeration
- Portable aeration socks
- Grain bin monitoring cables

Alto Technologies Inc.

420 - 210 Avenue P South
Saskatoon, Saskatchewan S7M 2W2
www.findalto.com

Alto revolutionizes the landscape of in-home caregiving solutions by providing a streamlined and efficient experience for individuals and families. Their platform is designed to simplify the process of finding home care, offering unparalleled convenience, speed, and affordability. With a meticulous vetting process in place, we ensure that every caregiver on their platform meets their stringent standards, allowing their customers to shift their focus from screening caregivers to finding the perfect match for their loved ones. This seamless approach enables families to swiftly and securely access home care services, ultimately facilitating seniors to age in place comfortably and sustainably, and individuals with disabilities to maintain their independence at home.

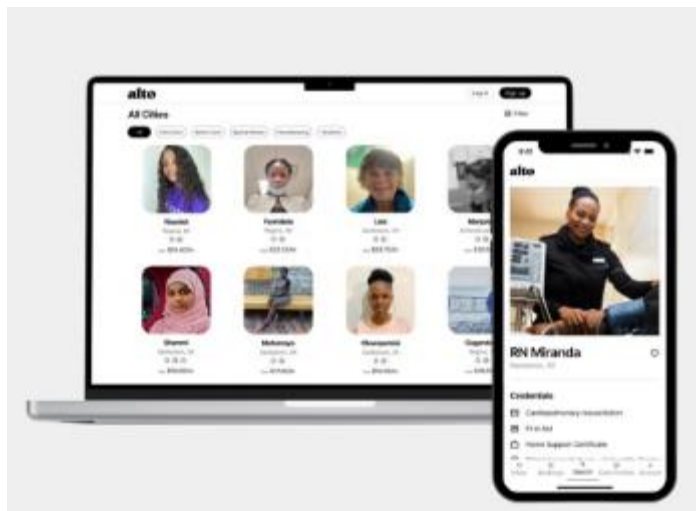

Products & Services Include:

- Their innovative platform that seamlessly streamlines the entire caregiving process, encompassing comprehensive vetting, efficient onboarding, and hassle-free caregiver payment. Once caregivers are vetted, individuals, families, and case workers gain access to a user-friendly platform that enables scheduling, payment, and seamless communication with caregivers.

Calian Agriculture Ltd.

118 Husum Road
RM of Sherwood, Saskatchewan S4K 0A4
www.intragrain.ca

Calian Agriculture Ltd. develops, commercializes and markets cost effective, innovative grain storage monitoring solutions. This company offers an affordable system that allows grain farmers the ability to monitor stored grain from anywhere in the world, via the internet and mobile phone. This system was developed by engineers in Saskatchewan and is serving the market as an expedient way for grain farmers across Canada and the world to monitor grain temperature and moisture. The BIN-SENSE® product consists of sensor cables that are mounted directly inside each bin, as well as a single master unit to collect and transmit information to their website for secure viewing. The system is battery operated, requiring no external power source, and all information is transmitted wirelessly. Users are notified by text message if or when a drastic temperature change has occurred.

Products & Services Include:

- Fuel Lock™, fuel monitoring and management system.
- BIN-SENSE®, grain storage monitoring system,

ENVIRONMENTAL
MATERIAL
SCIENCE INC.

Environmental Material Science Inc. (EMS)

3038 Faithful Avenue
Saskatoon, Saskatchewan S7K 0B1
www.ems-inc.ca

EMS provides hardware and software services that allow for companies to monitor and reduce soil hydrocarbons as well as monitor carbon sequestration, and greenhouse gas emissions. EMS has been in business since 2019 and is currently operating across AB and SK. EMS uses a data-driven approach to detect and treat hydrocarbon contamination. They place remote sensors into the ground and the data is livestreamed every 30 minutes to a dashboard. The data is analyzed and a biolodestone is formulated to determine a tailored blend of macro and micronutrients. This accelerates the microorganism activity tenfold for a quicker remediation time. The nutrients are inserted into the soil using a solar-powered, remote-operated compact (2'x3'x3') Distributor that does not require water tanks or generator.

Products & Services Include:

- SoilSense
- Distributor

Lumeca Health Inc.

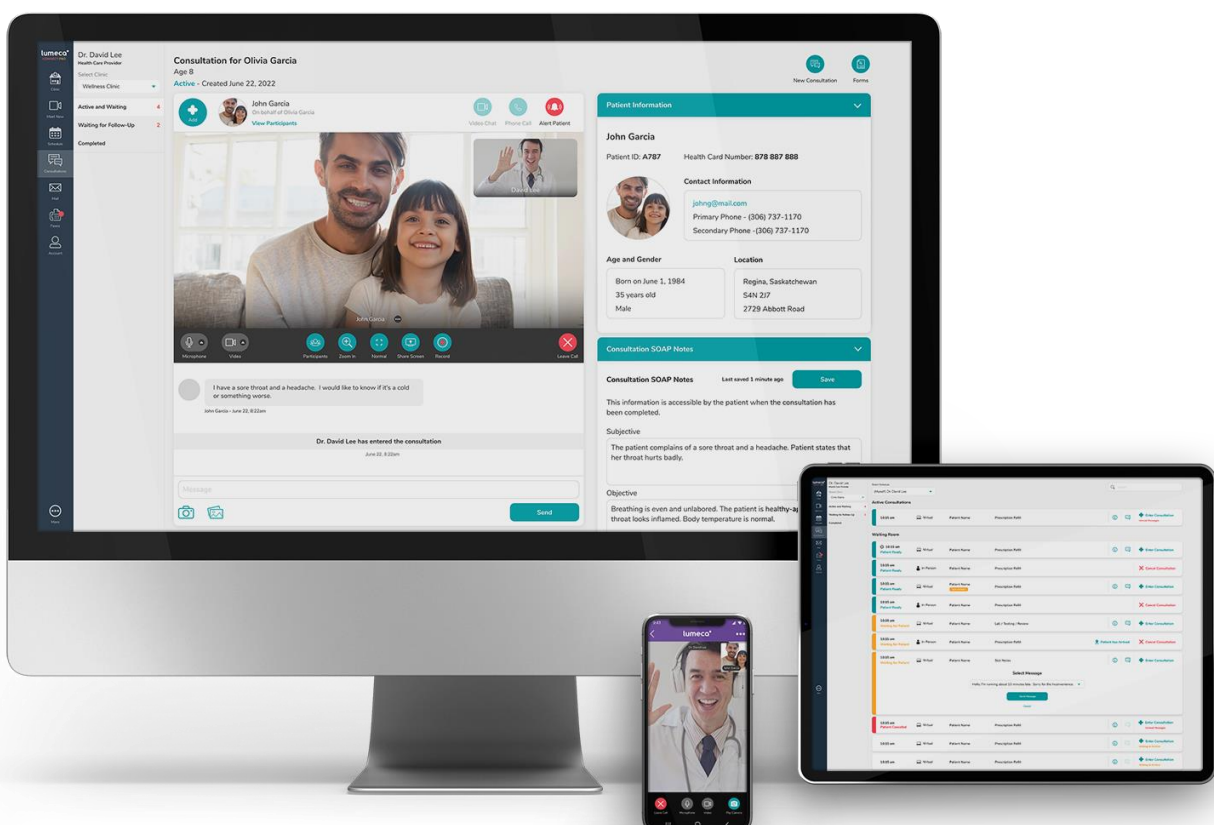

220 - 10 Research Drive
Regina, Saskatchewan S4S 7J7
www.lumeca.com

Lumeca Health is a fast-paced, professional leader in the virtual health care space. Their mission is to simplify communication between healthcare providers and their patients.

Products & Services Include:

- Two software products. Lumeca Connect, connects patients with their family doctors through a safe, secure video or phone consultation platform. It can even help unattached patients find providers near them. The second product is called Lumeca Go, which is geared towards Next Gen 9-1-1 services. Lumeca Go enables dispatchers to quickly send a SMS to a 911 caller on a cell phone. The caller clicks the SMS link and allows GPS and camera access, the dispatcher now has location and eyes on the scene to ensure proper services are sent to the scene as well as eliminate unnecessary resources being sent out. Providers can also send PHI or communicate with order providers during the process of patient transfers, treatment center, physician specialist support and emergency medicine.

SalonScale Technology Inc.

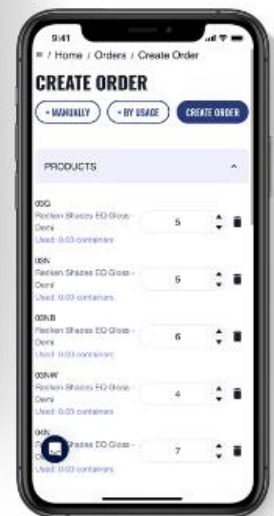

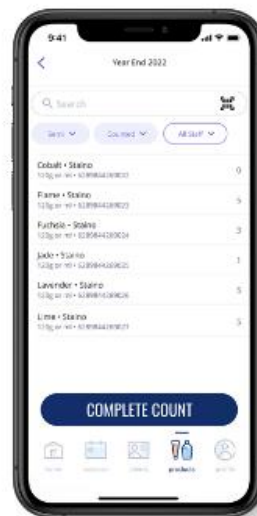

229-116 Research Drive
Saskatoon, Saskatchewan S7N 3R3
www.salonscale.com

SalonScale is easy to use salon software that will transform how you do business with an app that calculates the exact cost of every bowl of color mixed. Our mission at SalonScale is to save one salon at a time by taking the guesswork out of colour pricing, ultimately empowering salon owners to know their worth and ensuring products are always paid for.

Products & Services Include:

- A simple to use mobile app that uses Bluetooth technology to digitally track and manage supply usage. The combination of the app along with a Bluetooth powered scale, allows stylists are able to pinpoint the precise cost of the product being used to ensure that salon owners are charging enough for color services to create a positive cash flow. Salon Owners are then able to use the web dashboard system to track this data for their own reporting, inventory and data-driven decision making.

StoreToDoor Technology Inc.

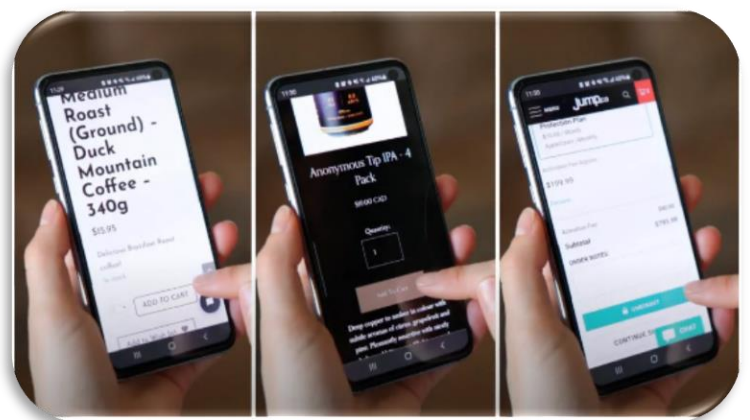

4906 Anthony Way
Regina, Saskatchewan S4X 0H4
www.storetodoorcanada.com

In late 2019 with the rise of e-commerce Scott Love recognized that Brick and Mortar retail were in for a rough patch! CEOs and owners needed a competitive edge to compete with larger retailers and E-commerce giants. Local retailers are typically using traditional couriers (Canada Post, FedEx, UPS etc.) that are slow and expensive. They need a cost effective and efficient same day option for their businesses. Quite frankly they are currently trying to figure out how they can keep their brick-and-mortar stores open. This is where StoreToDoor can help. StoreToDoor's platform provides A competitive Edge for local Retailers by giving them the ability to compete in their local trade area by providing a faster more reliable SAME DAY DELIVERY SOLUTION.

Products & Services Include:

- A white labelled platform that allows retailers the ability to offer a cost - effective same-day delivery to their customers while using our network of delivery drivers to fulfill the deliveries.
