Economic Development Regina Inc. (EDR) is the lead agency for economic development for the Greater Regina Area (GRA). EDR provides leadership to the community with specific accountability for the following core functions:

- Support industry growth and diversification through retention, development and attraction of industry and tourism.
- Find innovative ways to promote sustainable growth while effectively addressing the challenges associated with it.
- Market and promote the Greater Regina Area for business and talent attraction.
- Ensure the Greater Regina Area offers a vibrant and diversified economy for investors and offers a high quality of life for residents.

Together with community stakeholders, EDR is creating a vision for economic prosperity that capitalizes on Regina's many strategic assets. EDR recognizes that one of Regina's key differentiators is a strong level of connectedness among members of the community. Whether it's through community engagement, working directly with businesses or as strategic partners, EDR works to foster connections and welcome new businesses to the fold.

kimberly.brown@international.gc.ca

The Canadian Trade Commissioner Service (TCS) helps companies navigate the complexities of international markets and make better business decisions. The TCS is on the ground in more than 160 cities worldwide. We gain market intelligence, uncover opportunities for Canadian companies and help reduce business costs and risks.

The TCS is a free service of the Government of Canada, helping companies to prepare for international markets, assess market potential, find qualified contacts and resolve business problems. Our network of international contacts is unbeatable. As part of Global Affairs Canada and of Canada's network of embassies, the TCS has access to local governments and key business leaders and decision makers. We can increase the credibility of Canadian companies in global markets by helping them gain access to local contacts not readily available to outside businesses.

Services

Assistance for Canadian companies and organizations to increase revenues and lower costs of global business through four key services including preparation for international markets, market potential assessment, qualified contacts, and problem solving.

KPMG is a global network of professional services firms, whose aim is to turn understanding of information, industries and business trends into value. With over 207,000 people worldwide, KPMG member firms provide assurance, tax and financial advisory services in 152 countries. In Canada, KPMG's roots date back to 1869 – we have, therefore, been in business for over 150 years. We are one of the largest public accounting and advisory firms in Canada with over 6,700 people including 735 partners.

KPMG LLP has offices in over 40 locations across Canada and operates through four functional service lines – Advisory, Audit, Tax, Enterprise (Private Company Adviser). Using KPMG's local, national and global reach, the skills and talents of our people and some of the latest in knowledge-sharing tools and communications, our teams provide industry-specific services that can add real value to our clients.

Services

Full service audit and accounting, risk management, business advisory, tax and KPMG Enterprise.

The National Research Council of Canada (NRC), the Government of Canada's largest research and development organization, supports industrial innovation, the advancement of knowledge and technology development through partnership with Canadian industry.

Their Industrial Research Assistance Program (NRC IRAP) brings together a diverse network of organizations, services and programs to help Canadian small and medium-sized enterprises (SMEs) develop and exploit technologies in the competitive, global knowledge economy. The program offers financial assistance, advisory services and connections to the best business and R&D expertise in Canada with access to over 250 Industrial Technology Advisers (ITAs) for technical and business advice, referrals, and more from concept to commercialization, and an extensive network of regional, national, and international partners.

The International Program connects companies with services to access new markets and global value chains. NRC partners with national organizations and other government departments such as Global Affairs Canada, and collaborates with many countries and regions including India, China, the European Union, and the US to support joint R&D projects and co-innovation.

Services

Research and development support, state of the art research facilities, access to technology partners and technology licensing opportunities, international co-innovation project support, technical and business advisory services, and funding to help Canadian small and medium-sized businesses increase their innovation capacity and take ideas to market.

Conexus Credit Union is a forward-thinking, Saskatchewan-based credit union committed to members' and communities' financial well-being. As a member-owned cooperative with more than 80 years of serving members and giving back to the community, Conexus has 30 branches and nearly 900 employees across Saskatchewan, passionate about their purpose: to improve the financial well-being of our members and communities.

With a commitment to entrepreneurship, Conexus has launched Cultivator powered by Conexus, (Cultivator), Canada's first credit union-led business incubator focused on mentoring and growing aspiring entrepreneurs. Cultivator's impact is far-reaching as it continues to aid startups in expanding their revenue, securing capital, and building formidable teams. Through their innovative START, GROW, and SCALE programs, Saskatchewan startups receive tools, mentorship, space, and resources. Additionally, Cultivator's AGTECH ACCELERATOR, a collaboration with Economic Development Regina (EDR) and Emmertech (bolstered with solid support from PrairiesCan, Innovation Saskatchewan, and additional partners), unites agriculture and technology, helping grow agtech startups building solutions to global problems.

Innovation and a focus on the financial well-being of members demonstrate their commitment to being profitable, relevant, and member-centric while embracing the cooperative foundation Conexus was built on. Helping members afford the life they want to live drives everything Conexus does.

Quadrant Newmedia develops custom software solutions for small and medium enterprises, the healthcare sector and academic researchers. They provide application logic, database development and interface design for web and mobile applications.

They also supply secure email and managed hosting services for custom applications, including financial transactions and HIPA-protected medical information. These services are provided directly to the end users of the systems, and also to project managers and communications agencies in need of outsourced development expertise.

Services

Custom software development for web and mobile, for open source application stacks (including BSD/ Linux, Apache, Postgres/MySQL, Python) and iPhone (iOS) and Android, high performance, secure managed hosting and colocation with geographical distribution, replication, and DDoS scrubbing, UNIX system and internet security consulting. Quadrant also provides two SaaS suites: Smartsite MLM, a CASL-compliant high volume email communications service; and CAMS, an academic conference abstract review and management service.
